(New York, NY – July 1, 2009) The Software and Technology Vendors Association (SATVA) announced today that it has chosen John Raden, President of The Echo Group, as Chair of the SATVA, effective July 1, 2009 for a one year term. Raden had previously served as a treasurer of the SATVA board of directors.

On his election to Chair of the Board Raden commented, “There are many challenges this year for the members of SATVA. I am extremely confident in the experience and leadership qualities of the new Board of Directors to address the critical issues of certification to the ARRA definitions and terms. Communication will be very important to our members and as a vendor association we welcome dialog with any entities that would like to understand SATVA's work”.

Also elected to the 2009-2010 Board were Bill Connors, President of Sequest Technologies as Vice-Chair, Michael Morris, President & CEO of Anasazi Software, Inc. as Treasurer and Ravi Ganesan, President of Core Solutions, Inc. as Secretary. Board Members at Large for 2009-2010 include Fran Loshin-Turso, President of DeFran Systems Inc., J.J. Farook, CEO & President of InfoMC, Inc. and John Leipold, Chief Operating Officer of Valley Hope Association, Information Management Consulting and Software.

About SATVA

The Software and Technology Vendors' Association (SATVA) is a trade organization for vendors of behavioral health and human services software and information technology. Its members have a genuine concern for promoting the use of effective information technology in behavioral health and human services; helping to formulate and support quality improvement for the highest industry standards; and facilitating the delivery of more efficient and effective consumer services through use of information technology. www.satva.org
